

“ZAFER”

Zafer is one of the finest examples of a Bodrum-built transom stern gulet. She combines the beauty and grace of a traditional wooden boat with the space and comfort of a deluxe yacht.

Magnificently constructed, Zafer twin engines take you from secluded harbours to antique sites in safety, comfort and style. The large deck areas are perfect for sunning or for relaxing with a good book and a cool drink. Meals are served on deck at one of two shaded dining areas, assuring that you will miss none of the spectacular scenery.

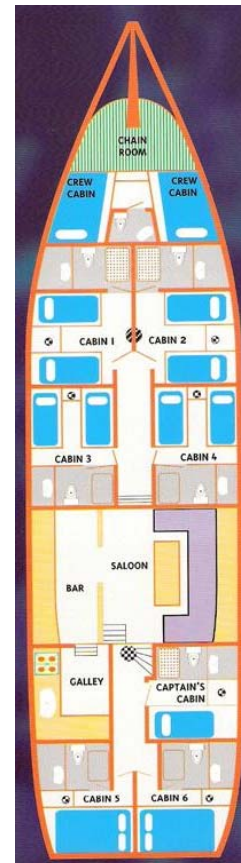

Zafer's 2 double and 4 twin cabins are ingeniously designed to optimize the use of space, giving the feel of a much larger yacht. Each twin or double bed cabin has its own air conditioning unit, orthopedic mattresses and ample storage and closet space.

The en-suite bathrooms have standard flush toilets, beautifully tiled shower stalls and basins of polished marble.

Zafer's dedicated captain brings years of local sailing experience, and her crew pamper and spoil you with individualized attention not available on even the most luxurious cruise ship. Whether you desire peace and tranquility or adventure and exploration, they will make sure that yours is truly the voyage of a lifetime.
