Built:	Mavrikos, Syros, Greece

ELEFTERIA is a stunning 63 ft motor sailer. A classic gaff schooner that retains a distinct, traditionally Greek character. Due to her wide beam she has a vast amount of deck space. A large and comfortable cushioned area stretches across the ship's mid-deck and is perfect for lying in the sun. The aft deck comfortably seats eight and is ideal for breakfast and casual lunches, sunset drinks or elegant dinner. The rich, wooden interior of the newly decorated saloon/dining area is warm and inviting and provides a panoramic view through numerous large windows. A professional and experienced crew of two take great pride in offering exceptional service.
